DATE MAILED: 07/27/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/728,379	Applicant(s) KODAMA ET AL.	
	Examiner Long Pham	Art Unit 2814	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 29-33, 40 and 48-64 is/are pending in the application.
- 4a) Of the above claim(s) 48-52 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 32, 33 and 59-64 is/are allowed.
- 6) ☒ Claim(s) 29-31, 40 and 53-56 is/are rejected.
- 7) ☐ Claim(s) 54-58 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Rejections and/or objections necessitated by the amendments

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 29, 54, 55, and 57 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original disclosure does not teach "wherein a distance between said first high concentration first conductive type region and said second high concentration second conductive type region is shorter than a further distance between said first high concentration second conductivity type region and said second high concentration second conductive type region". The original disclosure does not teach, "one of said trigger device is connected to a base of the first bipolar transistor, and another end of said trigger device is connected to a base of a second bipolar transistor".

Claims 29, 30, 31, 40, and 53 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ker et al. (US publication 2003/0075726) in combination with Polgreen et al. (US patent 5,465,189).

With respect to claims 29, 30, 31, 40, and 53, Ker et al. in combination with Polgreen et al. teach the claimed invention. **See office action dated 01/12/06.**

Further with respect to claim 29 as currently presented, as understood and taught, Ker et al. further teach that the anode region 104 and cathode region 105 are set to be minimum. See fig. 5a and associated text.

Response to Arguments

Applicant's arguments with respect to claims 29, 30, 31, 40, 53, 54, 55, and 57 have been considered but are moot in view of the new ground(s) of rejection.

In response to the applicant's arguments in the paragraphs on pages 12 and 13 of the amendment dated 05/12/06, it is submitted that the motivation for incorporating the teaching of Polgreen et al. into the device of Ker et al. is to provide protection for internal circuits. See col. 5, lines 25-40 of Polgreen et al. Further, it is submitted that a prior art reference is evaluated by what it suggests to one versed in the art, rather than by its specific disclosure, In re Bozek, 163 USPQ 545 (CCPA 1969) and a reference is considered not only for what it expressly states, but for what it would reasonably have suggested to one of ordinary skill in the art, In re DeLisle, 160 USPQ (CCPA 1969).

In response to the applicant's arguments in the bottom paragraph on page 14 of the amendment dated 05/12/06, it is submitted that since Ker et al. teach a trigger device connected to a first and second bipolar transistors, the trigger device is capable of be adapted to trigger the first and second bipolar transistors.

Allowable Subject Matter

Claims 59-64 are allowed.

Claims 54-58 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

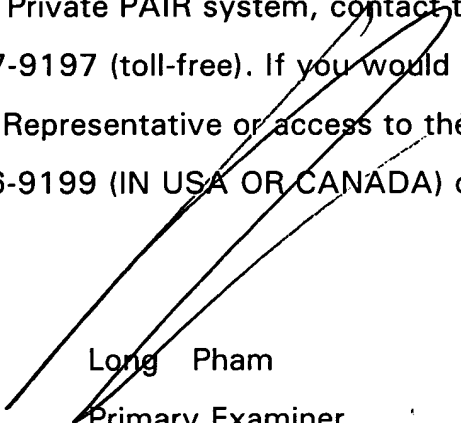

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Long Pham whose telephone number is 571-272-1714. The examiner can normally be reached on Mon-Frid, 10am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on 571-272-1705. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
